REMARQUES À PROPOS DE CE DOCUMENT.

Il s'utilise avec le « Puzzles pour apprendre à lire l'heure » de chez ACTION.

Vous pourrez le trouver via les reventes d'occasion.

Ces cartes sont à imprimer sur un papier épais ou sur du papier qui sera plastifié ensuite.

Elles seront à glisser dans le boîtier bleu afin que l'heure en digital soit cachée.

L'enfant vérifiera sa réponse en ouvrant le clapet.

REMARQUES QUANT AUX CODES COULEURS :

Ils correspondent à ceux que j'utilise depuis le plus jeune âge des enfants : vert pour le matin, et bleu pour l'après-midi.

Je ne code pas le midi en jaune pour ne pas induire une guidance quant à l'horaire.
