

SPEED DES HABITS

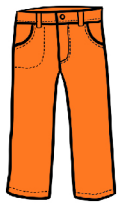

Ce support peut être utilisé de plein de façons :

- avec les règles du UNO
- avec les règles du SPEED
- en simple tri selon un critère défini. Ce dernier peut être guidé en utilisant les pictogrammes isolés :
 - * tri par quantités
 - * tri par habits
 - * tri par couleurs
- en combinant 2 ou 3 critères : on peut alors coller les pictogrammes sur un cube pour créer des dés à lancer.
