

FICHES MODÈLES DU JEU : COLORI-KIT

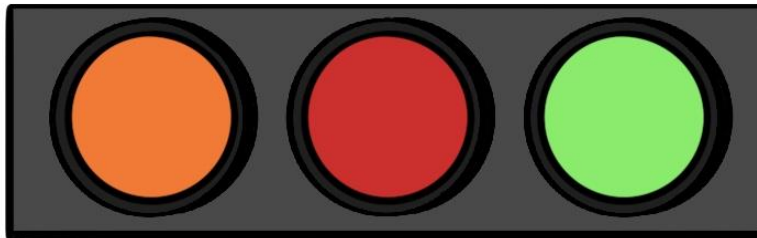

un jeu de chez SENS03D

Cette adaptation permet aux enfants en difficulté cognitive et motrice de travailler l'encastrement, les PVA et la mémoire.
WWW.AUTISMENJEUX.FR

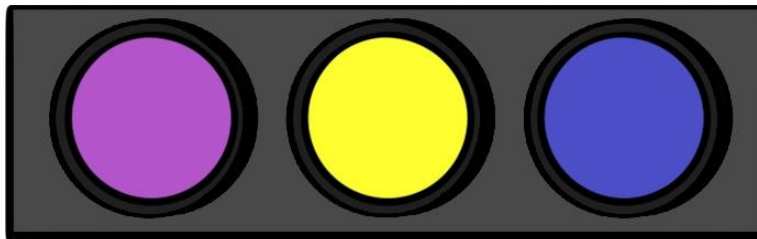

CONSEILS :

- **PRÉ-REQUIS** : la reproduction de modèles en 3D !! Avant de faire ces modèles sur papier, assurez-vous que votre élève sait reproduire des modèles « en vrai » : faites un modèle et l'enfant doit le reproduire avec son matériel à lui. Lorsque c'est bien acquis, passez à ces fiches, mais pas avant.
- **REMARQUE** : assurez-vous que l'enfant repère la première pastille, la pienne et la place, puis la seconde, la pienne et la place, etc. Il faut L'EMPÊCHER de prendre au hasard les pastilles !!
